Our Values

Telehouse Interconnect

Telehouse Interconnect, where the world gets connected, brings together more than 3,000 business partners, including carriers, mobile and content providers, enterprises and financial services companies. This makes Telehouse a unique place to create business opportunities, now and in the future.
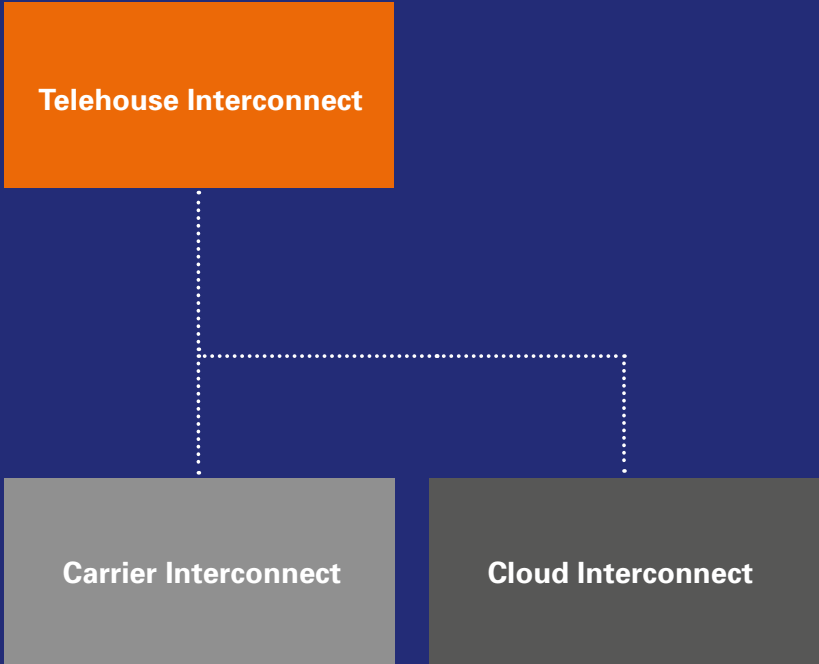

Cloud Interconnect

Telehouse enables many of the world's largest private and public cloud service providers to connect seamlessly and securely to end users. It offers enterprises secure, low-latency, and cost effective connections to cloud.

Carrier Interconnect

Our connectivity with 800+ partners makes us the ideal choice for companies that cannot compromise on latency.

Telehouse is also renowned for hosting some of the world's most important hubs: LINX, NYIIX, LAIIX, France IX, JPIX, DE-CIX, HKIX, playing a key role in supporting the growth of interconnectivity.

Telehouse Interconnect
